A fence-secured, revetted, explosives storage area is located 5.5 nm SSW of Sha-kou-hsu and 11 nm NNE of Ying-te. It contains 22 dispersed, revetted or partially revetted storage buildings (21 are 85 x 35 ft, one is 55 x 35 ft) with 62,475 sq ft of floor space, 13 cave entrances, and 8 small sheds (four, dispersed along the area perimeter, are probably used for security). A short personnel trench is visible within the fence on the NE edge, and approximately 30 small unidentified objects are visible near the cave entrances.

A probable support area is adjacent to the storage area on the SW. It contains 6 barracks-type buildings ranging from 100 x 35 ft to 190 x 45 ft with 28,750 sq ft of floor space, 2 administration buildings with 12,240 sq ft, 5 probable storage buildings with 10,000 sq ft, one building under construction with 3,300 sq ft, and at least 8 small miscellaneous support buildings and sheds. This area can accommodate 850 personnel on the basis of 33.6 sq ft of floor space per man.
